

# BioBlitz! 2021

Every year, Seacoast Science Center hosts a BioBlitz — a park-wide nature scavenger hunt. Expert naturalists, volunteers, and families come together to search for, identify, and record information on the different species, or kinds, of animals and plants in Odiorne Point State Park. Last year we had over 633 different species! How many do you think we'll have this year?

I, \_\_\_\_\_,

**visited the Seacoast Science Center today!**
