

Leaf Rubbings

First, gather your supplies

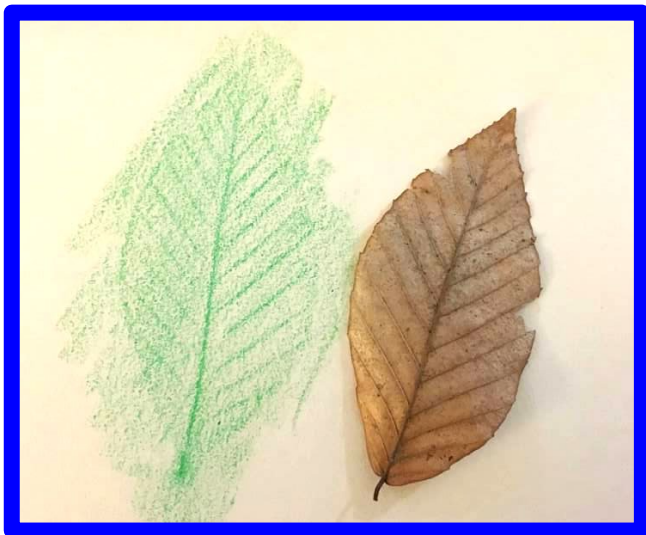

- Leaves!
- Paper
- Colored pencils or crayons

Place your leaf under the paper and use the angled edge of a pencil or crayon to rub over the leaf. Start gently and add more pressure if you need to.

Leaf Rubbings

Leaves with raised veins or a lot of texture work best!

You can arrange multiple leaves or use the same one more than once.

Tips

- Your leaf rubbing can be the start of a larger art project. Try adding your leaf rubbings to a collage, drawing, or painting!
- Try out different types of paper, like tissue paper or newspaper! Which type of paper is your favorite?
- Have fun layering colors and leaves!
